### PROFESSIONAL SUMMARY:

Motivated Data Analyst with hands-on experience in **Python, SQL, Flask, Excel, and NumPy**. Currently training at Grras Solutions, Jaipur, with growing expertise in **ML, Pandas, and Seaborn**. Capable of analyzing 1000+ data points, improving workflows by 15%, and delivering actionable insights.

### SKILLS:

- **Languages & Tools:** Python, SQL, HTML, CSS, Flask, Excel
- **Data Handling:** NumPy, Web Scraping, API Integration, Statistics
- **Learning:** Pandas, Seaborn, Scikit-learn, Machine Learning, Artificial Intelligence
- **Tools:** Jupyter Notebook, Git

### EXPERIENCE:

#### Data Science Trainee - Grass Solutions Pvt. Ltd., Jaipur (Mar 2025 – Present)

- Training in Python, SQL, Flask, and AI/ML fundamentals
- Building 3+ real-time projects and APIs with data analysis tools
- Helped preprocess 1,000+ records for model training
- Improved API response accuracy by 15%
- Delivered weekly presentations and reports for 2+ stakeholders

#### AI/ML Intern - Pedestal Techno World Pvt. Ltd., Jaipur (May 2024 – June 2024)

- Worked on 2 basic AI/ML models and practical scenarios
- Assisted in preparing datasets (500+ records) for supervised learning

### SELECTED PROJECTS:

#### Voice Assistant (Jarvis)

- Python-based assistant using speech recognition and OpenAI to respond to voice commands.
- Built using Flask and supports dynamic interactions through audio and text.
- Implemented 10+ voice commands with fallback handling and real-time response logic

#### Weather App

- Fetches real-time weather using API; includes animated front-end built with HTML/CSS.
- Integrated OpenWeatherMap API and displays output in a responsive layout.
- Handles weather data for 100+ cities with dynamic UI filters and animated visuals.

### EDUCATION:

#### Bachelor of Technology (B.Tech) -Computer Science

#### Bikaner Technical University | (“Expected Graduation: 2026”.)

- Relevant Coursework: Data Structures, Web Development, Database Management
