

MANISH SAINI

AI Engineer | Generative AI | RAG Systems | LLM Applications
Jaipur, Rajasthan | +91 9057054834 | manishchanwara0832@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

AI Engineer specializing in production-grade generative AI systems, RAG pipelines, and scalable LLM-powered applications. Strong expertise in embeddings, semantic retrieval, vector databases (FAISS, Qdrant), and backend development using FastAPI/Flask. Experienced in optimizing retrieval quality, reducing hallucinations, and designing end-to-end AI systems for real-world use cases.

TECHNICAL SKILLS

Programming & Backend: Python, FastAPI, Flask, REST APIs, Async APIs, WebSockets, HTML, CSS
Generative AI & LLMs: RAG, Prompt Engineering, LLM Integration, Embeddings, Semantic Retrieval, Function Calling
AI/ML & NLP: Machine Learning, Transformers, NLP, Feature Engineering, Model Evaluation
Vector & Search: FAISS, Qdrant, Semantic Search, Vector Retrieval, Embedding Pipelines, Hybrid Search
Frameworks: LangChain, LangGraph
Speech & Document AI: Whisper (STT), XTTS (TTS), Donut (Document AI), OCR Pipelines
Data & Analytics: Pandas, NumPy, Data Analysis, Data Cleaning, Visualization, Web Scraping
Tools & Platforms: ChatGPT, Gemini, Claude, Sarvam AI, Hugging Face
Databases & Dev Tools: MySQL, Git, API Integration

EXPERIENCE

- AI Intern (Paid)** — Business Now Pvt. Ltd., Jaipur Dec 2025 – Present
- Architected end-to-end RAG system over 5000+ PDFs — ingestion, chunking, embedding generation, FAISS/Qdrant indexing, and semantic retrieval
 - Designed optimized embedding pipelines improving retrieval relevance and response grounding quality
 - Reduced LLM hallucinations using retrieval-context fusion and advanced prompt engineering techniques
 - Developed scalable FastAPI and Flask microservices supporting production-level AI inference pipelines
 - Built conversational speech pipelines integrating Whisper STT and XTTS neural synthesis
 - Implemented Donut-based document intelligence for structured data extraction from semi-structured documents
 - Integrated ChatGPT, Gemini, Claude, and Sarvam APIs enabling multi-model AI orchestration
- Data Science & AI Trainee** — Grras Solutions Pvt. Ltd., Jaipur Mar 2025 – Oct 2025
- Developed ML and NLP models including supervised learning pipelines and feature engineering workflows
 - Performed data preprocessing, analysis, and visualization on real-world datasets with statistical evaluation
- AI/ML Intern** — Pedestal Techno World Pvt. Ltd. May 2024 – Jun 2024
- Built ML experimentation pipelines covering preprocessing, visualization, feature engineering, and evaluation

PROJECTS

Large-Scale RAG Question Answering System

- Engineered enterprise document QA system across 5000+ PDFs using semantic chunking and embeddings
- Built FAISS/Qdrant vector search systems with optimized chunking and hybrid retrieval strategies
- Reduced hallucination via retrieval-augmented generation with retrieval-context fusion techniques
- Implemented evaluation workflows measuring retrieval accuracy and response grounding quality

Ambition Box Job Analysis Platform

- Built AI-driven job market intelligence platform analyzing hiring trends, skills demand, and salary insights
- Designed large-scale web scraping pipelines and analytical dashboards for actionable market intelligence

EDUCATION

B.Tech in Computer Science Engineering (Final Year)
Bhartiya Institute of Engineering and Technology, Sikar
